AADESH KUMAR

Full-Stack Developer

Haridwar, India | +91 9760655299 | aadeshk306@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Full-Stack Engineer building Next.js and TypeScript frontends and backend APIs for SaaS, commerce and analytics products. Work includes a mentored multi-tenant rebuild, a customer-review platform and real-time, video and payment integrations, plus independent web platforms.

TECHNICAL SKILLS

Frontend: TypeScript, JavaScript, React, Next.js App Router, Tailwind CSS, TanStack Query and Table
Backend & data: Node.js, Express, REST APIs, SQL, PostgreSQL, MongoDB, Prisma, Redis, NextAuth, OAuth 2.0, JWT, Socket.io
Testing & delivery: Vitest, Jest, Supertest, K6, Grafana, Postman, Git, GitHub Actions, Vercel, Cloudflare, n8n
SEO & analytics: Google Search Console, Bing Webmaster Tools, Schema.org, IndexNow, keyword research, SERP API

EXPERIENCE

Full-Stack Engineer; later also AI & Automations Engineer, CIS IT Solutions Apr 2025 - Present

- Built complete frontends for Fesensi (ticketing SaaS), Artisan (art marketplace) and Nakshatra (astrology app); contributed backend services and API integrations. Nakshatra is in production.
- Built CXScore360 (customer-review platform) across frontend and backend, from design through implementation.
- Monitored SEO and technical search health across company websites using Google Search Console and Bing Webmaster Tools; fed findings into content automation workflows.
- Rebuilt the Fesensi backend for multi-tenancy under senior mentorship and ran K6 load tests with Grafana to surface and resolve bottlenecks.
- Integrated Agora for video consultations and Razorpay for payments; delivered Socket.io real-time features and added backend tests with Vitest, Jest and Supertest.
- Built Nakshatra's astrology chat and reporting agents using external APIs, rules, RAG and templates; built Artisan's sales agent for product, cart, order and support workflows.
- Built single-page concept websites with form submissions for PlutoCRM, Vision Clinique, Exadata and Nakshatra Community; created n8n blog agents and managed n8n workflows and a Vercel test branch.

Junior Frontend Developer, Perky Solutions Dec 2024 - Mar 2025

- Built responsive dashboards and data tables for 10,000+ rows with sorting, filtering and pagination.
- Reduced development time by 20% by standardizing reusable UI components and patterns.

Market Analysis & Next.js Development Intern, Lostronaunt Aug 2024 - Oct 2024

- Conducted market research and translated findings into requirements for a business analytics dashboard.
- Built the dashboard with Next.js, TypeScript, Prisma, MongoDB and NextAuth, including access control, search, charts and uploads.

INDEPENDENT PERSONAL PROJECTS

Japp Tattva | japptattva.com Live

- Built a Next.js storefront, admin backend and headless blog in one monorepo using PostgreSQL, Prisma, Redis, NextAuth and Razorpay.
- Added scheduled jobs, a session-aware AI concierge with catalogue lookup and a 109-node n8n content workflow with model fallback.
- Built a keyword engine combining Google Search Console data with AI suggestions, scoring relevance, search intent and competition before updating content metadata.
- Search Console recorded **1.83K Web search impressions and 17 clicks in 28 days**, with 0.9% CTR and average position 10.5; a separate Generative AI features report recorded 201 impressions.

Decoded Person | decodedperson.com Live

- Built a Next.js and PostgreSQL publishing platform with 20-source RSS ingestion, LLM triage, fact validation and database deduplication.
- Integrated publishing to YouTube, Instagram, LinkedIn and Discord, including resumable media uploads.
- The site recorded **522 Google search impressions and average position 8.1 in its first week**.

CERTIFICATES & TRAINING

- **Chatbot or Smart Assistant Development** - Cisco thingQbator; Certificate of Excellence for completion.
- **Web Development Workshop** - Microsoft Learn Student Ambassador-hosted; attended and completed.

EDUCATION

B.Tech, Computer Science Engineering 2021 - 2025

Doon Institute of Engineering and Technology, Rishikesh
